### ABS Plastic A-Body Headliners

These 1 pc ABS Plastic headliners replace the original cardboard style 1 pc headliners found in 1972-76 Plymouth & Dodge “A” Body cars. They can be ordered covered in a foam backed tier weave material or a smooth cloth material. Just use the 3 letter code for color and add the letter T for tier or C for cloth. You can also order these “uncovered” and paint the board yourself.

Examples: 1974 Dart Sport Black Headliner in Tier Weave = HA960 BLKT

ENGINE CONVERSION BRACKETS

Engine Swaps Simplified

These mount kits are designed to eliminate the need for replacement of the K-member when performing an engine swap. That way, the new engine is installed according to factory specifications. We have mounting kits available, which include the black brackets, as well as all necessary insulators and fasteners. These kits can help you to replace your existing block with the same type of engine, or allow you to upgrade.
